

Being the Role of Leader (LS5)

A one-day learning module
Prerequisites: LS1, LS2, LS3

The Transformational Leadership Skills Program:

Leaders make tomorrow different from today by conscious intention. Leadership happens throughout organizations, not just at the top. Everyone has a leadership horizon and everyone can increase it. How big your leadership horizon gets depends on the leadership skills you have and exercise. TLS is a program of sharing and learning with experts. It enhances your skills for engaging in leadership activities and producing leadership results. All training includes one hour of telephone coaching to get you launched after the course.

This Learning Module:

Being the Role of Leader (LS5)

Within organizations, especially networked organizations, it is not always necessary for the person fulfilling a leadership function to be seen or proclaimed as a leader. Quiet, unassuming leadership is powerful. This module recognizes leadership as a human energy field and explores the sustaining quality of the inner person when all outer influences are defiant of leadership.

Do you need to:

- Fulfill an undeclared leadership role?
- Take responsibility temporarily?
- Lead because someone else isn't, but should be?
- Try leadership on for size?
- Improve staff morale?
- Answer a deep calling within?

If the answer to any of the above is YES then you need
Being the Role of Leader.

Being the Role of Leader is one of the most powerful learning experiences in the TSL Program. This learning module provides you with the skill of leading without being proclaimed a leader. Learn how to empower others to achieve and celebrate their success, and know in your heart that you were the inspiration.
