

Fear, Risk and Courage (LS10)

A two-day residential
retreat learning opportunity
Prerequisites: all LS1- LS9

The Transformational Leadership Skills Program:

Leaders make tomorrow different from today by conscious intention. Leadership happens throughout organizations, not just at the top. Everyone has a leadership horizon and everyone can increase it. How big your leadership horizon gets depends on the leadership skills you have and exercise. TLS is a program of sharing and learning with experts. It enhances your skills for engaging in leadership activities and producing leadership results. All training includes one hour of telephone coaching to get you launched after the course.

This Learning Module:

Fear, Risk and Courage (LS10)

Leadership involves being one of the first people who, motivated by knowledge of present conditions and need, is willing to venture into some aspect of the unknown. When there are unknowns, there is risk. To the extent a leader is aware of risk, there is attendant fear. When there is willingness and determination to act in spite of fear, there is courage. This learning module explores courage as a key ingredient of leadership in a two-day residential retreat setting.

Do you need to:

- Break out of a "same old, same old" rut?
- Look fear in the face, or help your colleagues get past their fears?
- Release the energy locked up in fear?
- Learn how to manage risk?
- Make friends with your courage?

If the answer to any of the above is YES then you need
Fear, Risk and Courage.

Fear, Risk and Courage is the place where all the TSL skills come together. Courage without skill and knowledge may be reckless even when needed. Courage that's underpinned with knowledge and skill leads to wise and timely action.

Fear, Risk and Courage:

- Probes beneath the surface to understand the mechanisms of fear, risk and courage;
- Shows how to control and harness the power of fear,
- Provides a framework for acting in spite of fear;
- Encourages a diversity of perspectives;
- Discovers humility and healthy pride.

Who should participate in this learning?

Everyone who has participated in the nine prerequisite TSL learning modules. Regardless of a person's place in society, the ability to lead in spite of fear and risk is a valuable personal quality. Courage is not an automatic result of the other skills in the TSL program. It springs from an ability to catch one's skill, knowledge, awareness of risk and willingness to act in a momentary perspective.

Benefits:

- Motivate and inspire yourself and others;
- Meet your Wizard and your Warrior within;
- Awaken your Sovereign and your Lover self;
