

Leadership in Transition (LS4)

A one-day learning module
Prerequisites: LS1, LS2, LS3

The Transformational Leadership Skills Program:

Leaders make tomorrow different from today by conscious intention. Leadership happens throughout organizations, not just at the top. Everyone has a leadership horizon and everyone can increase it. How big your leadership horizon gets depends on the leadership skills you have and exercise. TLS is a program of sharing and learning with experts. It enhances your skills for engaging in leadership activities and producing leadership results. All training includes one hour of telephone coaching to get you launched after the course.

This Learning Module:

Leadership in Transition (LS4)

The concept of leadership is changing, driven by huge changes in the nature of society. This learning module examines the changing nature of leadership in organizations and makes a distinction between leadership as a functioning concept and the leader as a functioning person. It is valuable for those who are seen, or want to be seen, as "enlightened" leaders.

Do you need to:

- Inspire others in chaotic situations?
- Understand change in society and leadership?
- Work effectively in a dysfunctional hierarchy?
- Demonstrate that people are valuable?
- Improve staff morale?

If the answer to any of the above is YES then you need *Leadership in Transition*.

Leadership in Transition is the fourth learning module in the TSL Program. This module provides you with an in-depth understanding of leadership as a participative process in a changing and increasingly networked society. Learn how to lead by demonstrating and by encouraging leadership throughout the organization.

Leadership in Transition:

- Probes beneath the surface for understanding of organizational change;
- Provides a structure for co-operative decision making;
- Inspires people to take responsibility;
- Encourages a diversity of participation.

Who should participate in this learning?

Anyone who is or wants to be in a leadership role, or simply wants to understand the changing nature of leadership. It is particularly valuable for middle to senior level managers in business and industry, government and social organizations. Supervisors, executive directors, managers, private consultants, educators, community specialists, health practitioners, concerned citizens.

This is a pathway of courage.
