This Learning Module: Understanding Money (LS9)

Most of us don't think of money as energy - in fact, we don't think about money much at all. We take it, or the lack of it, for granted. Little leadership can happen in the modern world without understanding money as energy. How did the concept originate? How has it changed over history? How does it serve society; how does it dominate? This learning module is an introduction to the GWLI financial literacy learning network.

Do you need to:

- Know the history of money - a little bit?
- Distinguish between the significance of personal and organizational money?
- Survive the dominance of money?
- Understand money as energy?
- Get money working for you as a leader?

If the answer to any of the above is YES then you need
Understanding Money.
